Chilean islands reference

Rules

Make a contact with Chilean Island as follow:
Foreing Stations need only 70 point

1.- Chilean island that also count as different country like CE0A Easter Island,
CE0Z Juan Fernandez Arch. or CE0X San Felix give 10 points

2.-IOTA Islands give 5 point.

Different islands in an archipelago with same IOTA reference count as different island,
ex. Chiloe island, Quinchao island, in the same archipelago SA-018, but different ICE
reference

3.- Other Islands give 3 points

You must send a list with QSO and QSLs.

The fee for the award is as follow:

4 IRC or U\$2 plus extra money for returnthe QSL.

All contacts made with a licensed amateur radio operator/station since 01
January 1980 count provided they are on any of the amateur radio bands from
6 through 160 meters. The WARC bands of 12, 17.

All modes are acceptable SSB, CW, PSK, RTTY, etc

Contacts with land mobile stations on islands are all right, however,
contacts with maritime mobile stations near islands do NOT count. This

condition applies to boards in a harbour, except that credit may be given if one or more essential parts of a stationsuch as the transceiver, antenna, or power supply is shown to have been on shore onthe island for the QSO.
